Respected Parents, Teachers and dear students,

Greetings from the Principal!

I hope all of you are fine. We are all locked down to protect ourselves from the pandemic virus COVID-19. We are hopeful things will improve in coming months. Let us abide by the guidelines given by the Government and the medical experts. Remain safe at home.

Due to lockdown we have missed about 25 schooling days and we may miss another 25 days. I know parents and students are anxious about progress and completion of the syllabus. I request you all not to have so much of worry. We have committed and dedicated teachers and supportive management team. We will strive hard to complete the syllabus within the period that will be available after the lockdown. We will have classes even on Thursdays. Puja holidays and Christmas holidays will be cut short. Therefore don't plan for going out during holidays. Teachers have already started preparing notes for different classes which will be uploaded in the school website (stxaviersraiganj.com).

This year students have been reshuffled in to different sections. Parents and students should not be worried about this. This is a normal reshuffling. No section is made up of only the bright or not so bright students. It is a balanced mixture of students. It is not based on performance or even for punishment. It is an opportunity to mingle with many more students which will bring more openness and acceptance among the students. Moreover students are not barred to mingle and talk with the students of other sections. Therefore I request all the parents to encourage and motivate their children to accept this reshuffling.

Some students have been inquiring about the admission to class XI. Yes it will soon be announced about the procedure for admission to class XI. Once again I assure you my prayer and support. Don't be worried and anxious but be hopeful.

With much regard.

*Haman*
